Professional Summary:

Detail-oriented and highly skilled Civil Lab Technician with 5 years of hands-on experience in material testing, quality control, and laboratory analysis within civil construction environments. Proven expertise in conducting a wide range of standard and specialized tests on construction materials such as concrete, asphalt, and soil to ensure compliance with industry standards and project specifications. Known for strong analytical skills, meticulous attention to detail, and a commitment to maintaining safe and efficient lab operations.

Professional Experience:

5+ Years

Civil Lab Technician

CNA ENGINEERING & SERVICES, PAKISTAN

September-2020 to October 2023

- Collect samples of concrete, soil, aggregate, and asphalt from construction sites or production facilities.
- Prepare test specimens and ensure correct labeling and handling of all materials.
- Perform basic concrete tests such as slump test, compaction factor test, compressive strength test, and curing observations.
- Conduct soil tests including moisture content, specific gravity, Atterberg limits, standard and modified Proctor compaction, and California bearing ratio.
- Carry out aggregate tests such as sieve analysis, specific gravity, water absorption

- Record all test results accurately and maintain detailed and organized logs.
- Prepare formal test reports and communicate results to engineers and supervisors.
- Maintain and calibrate laboratory equipment to ensure accuracy and reliability.
- Identify and report any equipment faults or unusual test outcomes.
- Support on-site quality control by verifying that materials meet project specifications.
- Follow all safety protocols in the laboratory and ensure a clean and orderly workspace.
- Assist with the development and improvement of testing procedures as needed.

Lab Assistant

CNA ENGINEERING & SERVICES, PAKISTAN

August-2018 to September-2020

- Assist in preparing concrete, soil, aggregate, and asphalt samples for laboratory testing.
- Clean and maintain laboratory tools, molds, and testing equipment.
- Organize and label samples properly to avoid mix-ups.
- Support technicians by measuring, mixing, or weighing materials as directed.
- Enter test data into logs or forms under supervision.
- Maintain cleanliness and order in the lab work area.
- Follow laboratory safety rules and wear proper protective equipment.
- Report damaged tools or equipment to the supervisor.
- Observe and learn proper testing procedures to build knowledge and skills.

Professional Education:

EXPERIENCE CERTIFICATE

To Whom It May Concern

This is to certify that Mr. Mohsin Hayat, S/O Mr. Nasir Nawaz, was employed as a Civil Lab Technician at CNA Engineering & Services from September 2020 to October 2023.

During his tenure, he was involved in laboratory testing of construction materials including concrete, soil, aggregate, and asphalt. His responsibilities included sample preparation, conducting standard material tests, maintaining lab equipment, and ensuring accurate documentation. He performed his duties with diligence, discipline, and professionalism.

We found him to be reliable and committed throughout his service. We wish him success in his future endeavors.
