

Engr. Muhammad Ibraheem

Technical Manager

MUHAMMAD IBRAHEEM

B.S (Building/Civil)
PERSONAL DATA

Name : Muhammad Ibraheem
Father's Name : Muhammad Saleem
Contact No : +966595140800
Nationality : Pakistani.
Date of Birth : Dec 11, 1988
Driving Licenses : Yes
Iqama : Transferable
Languages : English, Arabic and Urdu
Email Address : enqr.ibraheem17@gmail.com

CAREER HIGHLIGHT

Have more than 14 years of multi-disciplinary engineering practice as a Technical Manager such as testing or inspection for Steel, Soils, Concrete, Asphalt, Batch / Lab Trials and Aggregate. Efficient engineer equipped with expert Construction planning, Quality control, Drafting and project management skills, Drawings, Running invoices, Auditing, Construction surveying, Technical plan execution, Auto Cad specialist, Strong decision maker as well as the ability to drive early project completion. Have a comprehensive knowledge in technical specifications such as ASTM, AASHTO, BS and ACI. A dedicated professional, who is highly self- motivated with an exceptional ability to succeed at every level.

Advanced Construction Technology Services (ACTS), KSA **2014 to Present**

- Supervises and reviews the preparations of material testing method statements.
- **Concrete and Aggregates:** Knowledgeable with all practices required for the evaluation of fresh and hardened concrete and concrete aggregate used in construction.
- Familiar with early thermal cracks in Mass concrete foundations and its precautionary actions used at site to reduce such problems.
- Arranging IRs for site inspections and Concrete pourings.
- Arranging Quality Control plan before the pouring of concrete at site to avoid quality issues.
- Reviewing the material testing certificates, communicating with the supplier for necessary changes and ensuring the final approval from the client.
- Responsible for concrete pouring at site and for its quality control testing like Slump, Temperature, Air Content, Density, Flow testing, and making of concrete specimens for checking its strength in the lab.

EDUCATION

Bachelor of Science in Building & Architecture Engineering
Bahauddin Zakariya University,
Pakistan, 2011

PROFESSIONAL MEMBERSHIP

Saudi Council of Engineers (SCE)

TRAINING CERTIFICATES

- Concrete Testing (ACTS)
- Soil Testing (ACTS)
- Aggregate Testing (ACTS)
- Asphalt Testing (ACTS)
- Grout Testing (BASF)
- Radiation Safety Officer (ESTSS)

Engr. Muhammad Ibraheem

Technical Manager

- Raise deficiency and Non conformance Reports when required and ensure close out through concerned engineer, project manager. Ensure corrective/Preventive action is taken.
- Arranging core testing or other suitable NDT testing for harden concrete in case of segregation or strength issues generated in the structure.
- Witnessing of concrete Raw materials testing like fine and coarse aggregate testing in the lab which is directly related with quality and strength of concrete.
- **Steel:** Inspection of steel work for slabs, beams and columns as per structural drawings of the building.
- Inspection of steel for precast elements and their mold's dimensions with their electrical and mechanical pipes details mentioned in the drawings.
- Checking the quality of the steel and approved supplier's certificates for the purchasing of steel on the project.
- Arranging mechanical testing like Tensile, Compressive, Bending and Hardness testing of steel and witness for their results.
- Arranging NCR in case of any failure or issue at site during inspection or testing.
- Knowledgeable with the required criteria (Physical, mechanical and Chemical) used in the testing evaluation and examination for specification-conformance of steel.
- **Soil and Rocks:** Capable of performing, supervising and evaluating test results and providing guidance for personnel engaged in testing soil and rocks in accordance with ASTM.
- Conduct and review processes and trials for Mix Design of Concrete.
- Supervise batch trials and check if it meets the requirement of design mix.
- Check Strength and Durability analyses of concrete.
- Prepares technical reports and material testing submittals.
- Review project Specifications and update them in accordance with recent standards and site conditions.
- Assign tasks for the technicians in each department (Soil, Aggregates, concrete and durability).

PROJECTS INVOLVED WITH

TECHNICAL MANAGER

KAAR / MASAR PROJECT

(Nesma & Partners Company)

Makkah KSA

2018 to till date

TECHNICAL MANAGER

Jeddah, KSA

2016-2017

TECHNICAL MANAGER

KING ABDUL AZIZ INTERNATIONAL AIRPORT PROJECT

(BIN LADIN COMPANY)

Jeddah, KSA

2016

Engr. Muhammad Ibraheem

Technical Manager

- Raw Material testing (Aggregates, sand, Chemical admixtures, Fly ash, Micro Silica) according to international codes such as ASTM to check the compliance with project specification and standard.
- Proceed with Trial Mix Design for approved raw material to get the most economical adequate design mix.
- Asphalt and Bitumen – Capable of performing, supervising and evaluating test results and providing guidelines for personnel engaged in testing asphalt and bitumen in accordance with ASTM.

NDT TESTING

- Cross hole sonic logging testing for piles.
- Dynamic load test for piles.
- Static load test for piles.
- Caliper logging test for boreholes.
- Identifies and develops new services and features to meet current and future customer needs.
- Researches and documents new technologies which may assist in growth of the company's testing capabilities.
- Provides technical support to technical issues in all departments, acts as mentor to develop new engineers.
- Supervises routine testing activities with strict adherence to quality parameters and advises clients about various testing requirements as well as maintaining internal quality records of the project.
- Identifies and replicates best practices and services in the company.
- Attends progress meetings, discuss and suggest technical proposals.
- Take part in the project management review and risk management review.
- Provides design and details support to develop project and site works.
- Performs failure analysis jobs and reports technical findings & evidences, conclusions and recommendation.
- Writes and reviews project technical reports.
- Oversees the direction of samples when required to the approved subcontractors.

CERTIFICATE OF TRAINING

This is to certify that

Muhammad Ibrahem Muhammad Salem

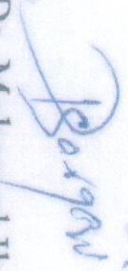

has successfully completed

Asphalt Training

From Nov 05, 2017 to Nov 25, 2017

Conducted at ACTS Main Laboratory, Jeddah, KSA

In recognition therefore, this certificate is issued and verified from

Dr. Mohamed Ibrahim El Sharkawi

Head of Asphalt and Pavement Division

CERTIFICATE OF TRAINING

This is to certify that

Muhammad Ibraheem Muhammad Saleem
has successfully completed

Concrete Training

From Dec 13, 2014 to Dec 25, 2014

Conducted at ACTS Main Laboratory, Briman, Jeddah, KSA

In recognition therefore, this certificate is issued and verified from ACTS.

Jemal Emam

Sr. Materials Engineer

CERTIFICATE OF TRAINING

This is to certify that

Muhammad Ibraheem Muhammad Salem

has successfully completed

Soil Training

From May 18, 2015 to June 07, 2015

Conducted at ACTS Main Laboratory, Jeddah, KSA

In recognition therefore, this certificate is issued and verified from ACTS.

Jemal Emam

Sr. Materials Engineer

CERTIFICATE OF TRAINING

This is to certify that

Muhammad Ibrahim Muhammad Salem
has successfully completed

Aggregate Training

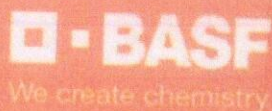

From Jan 24, 2015 to Feb 12, 2015
Conducted at ACTS Main Laboratory, Jeddah, KSA

In recognition therefore, this certificate is issued and verified from ACTS.

Jemal Emam
Sr. Materials Engineer

Application Training Attendance Certificate

This is to certify that **Nesma & Partners**, had gone through a successful training of mixing and application of MasterEmaco® S 486 (High strength, non-shrink polymer fiber reinforced cementitious mortar) conducted at project site in Makkah in July 2020

Thirty Five(35) employees who attended the training and whose names appear below with iqama #, had shown good quality of work. Hence, they are provisional pre-qualified applicators to the Saudi BASF range of product as described above.
